Ultrabooks

Aspire S5

The Aspire S Series Ultrabook™ frees you to go mobile like never before. As thin as 11 mm, each S Series makes "weight" a word of the past. And it makes waiting a thing of the past: Each S Series starts instantly and gets online quickly. Multitasking is easy thanks to powerful processing and super-responsive solid state drive technology. The ultra-slim design features an aluminum/Mg-Al case that looks great -- and provides road-ready durability.

Thin

The Aspire S5 Ultrabook™ is razor thin at just 11 mm. The secret is MagicFlip, a panel that closes up to hide the ports and slims down the profile at the same time. When it's open, you have access to Thunderbolt™, USB 3.0 and HDMI®.

Portable

The Aspire S5 is supremely portable and as game as you are for all your day's adventures. Its ultra-slim profile makes it easy to carry and handle, while its 1.2 kg weight is barely noticeable on the go. Its sturdy Mg-Al chassis withstands bumps on the road, and Acer TheftShield secures your S5 in public places.

Connected

Acer Green Instant On wakes the Aspire S5 in 1.5 seconds, and Acer Instant Connect gets you online in just 2.5 seconds.1, 2 When the S5 resumes, Acer Instant Update automatically refreshes webpages and email so everything is always there for you. Plus, AcerCloud grants anytime, anywhere access to all your data on all your devices, even across multiple operating systems.

Fast

Thanks to its cutting-edge architecture, the Aspire S5 races through daily computing tasks. Apps respond quickly and navigation is snappy with advanced RAID0 SSD and up to Intel® Core™ i7 processing. Data transfers between devices are lightning-quick through the Thunderbolt™ port.
